

Outline solution for Rock Café

The Rock Cafe in Bandar Sunway, is conveniently located near to Sunway Pyramid, Sunway Lagoon, and Monash University Colleges.

Surrounded by trees which also provides a natural shade from the sun, this outdoor establishment serves a wide variety of local cuisene and a great sit-down conversation atmosphere it has now also added a great sounding Outline audio system to its menu.

The outdoor seating area is equipped with 3 large projection screens and the owner was looking to upgrade and provide a clear sound for customers during the live telecast of EPL football matches as well as the ability to deliver great music for customers like to chill out with beers. The outdoor open area is also used for music performances and special events. The design and supply of the sound system was done by Pan Asia Integrated System Sdn Bhd. The Cafe's new sound includes 2x Outline IS8 and 4x Outline IS6T outdoor speakers, an Outline M5000-4 power amplifier, and 2x Outline custom rain caps.

Pan Asia's Technical Director, Yee Tat Nam, explained that the new installed system is designed to be simple and easy, with no additional processor added as the Outline loudspeakers are already sounding great with the raw sound delivered from Outline Power Amplifiers. "The owner is happy with the new system, so now not only with great food but they also provide great sound experience," said Yee Tat Nam.
