Superflys support Yovie And His Friends

INDONESIA: Melodia Sound supplied the sound system for the recent Yovie And His Friends concert at the Grand City Convention and Exhibition Centre in Surabaya. As the distributor for Outline, Melodia Sound deployed a main PA system comprising the Italian manufacturer's Superfly line array elements.

The system was formed from left and right hangs of eight Superfly cabinets each, with six DBS 18-2 subwoofers ground stacked on either side for low-end reinforcement. In addition, six Outline Vegas 12 CX enclosures delivered centre-fill.

Outline's Newton was employed for processing, while a Soundcraft VI5000 digital mixing console was employed at FOH. A Yamaha PM1D handled the mix for monitors.

'We faced challenges during the set up, as Yovie And His Friends are a big band with many instruments,

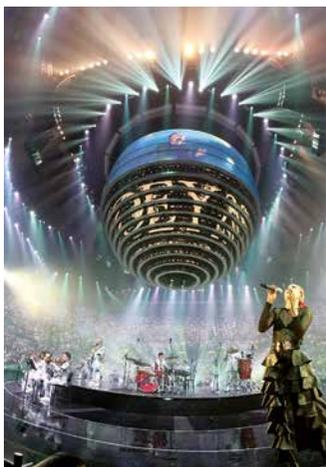

as well as an orchestra with violins, saxophones and more,' said Rudy Winarto, director of Melodia Sound. 'Plus, the wireless system included IEMs, wireless host modules and instrument mics. We overcame these challenges through good teamwork and excellent knowhow, with good communication and coordination during preparations and at the venue.'

Joey Yung turns to DMT

HONG KONG: Joey Yung celebrated the 20th anniversary of her singing career with a spectacular concert at the Hong Kong Coliseum recently. Renowned British stage designer Es Devlin, who has worked with international stars such as Beyoncé and Lady Gaga, was invited to design and produce the set, while DMT supplied several audio solutions.

Joey Yung chose Sennheiser 5000 Series wireless microphones for the concert, which were provided along with various models from the catalogue of DPA Microphones. Meanwhile, at front of house, mixing engineer Frankie Hung sat behind a Solid State Logic L550 console.
